

**F**ew would have guessed in 1998 that Peter Pickett would embark on a journey of creating a world renowned brass mouthpiece and accessory manufacturing company.

However, after accepting a mechanical engineering job out of college in Lexington, Kentucky, Peter spun up his first lathe to do just that.

With the new shop situated in his backyard, Peter was able to turn his fascination with trumpet aesthetics into trim kits for his instruments. In the process of developing and creating a firm business foundation, his focus turned to the design of brass instrument mouthpieces.

Peter's engineering graduate studies revolved around acoustic modeling of the trumpet air column and active control systems. Combining this work with his BA in trumpet performance brought to bear passion and skill, ensuring a lasting drive and ultimately an efficient and effective business.

The design and creation process of Pickett Brass mouthpieces is not a replication or reproduction of any other company's process in the industry. Process design, from the ground up, has been painstakingly thought through to provide the best possible quality

in a strikingly efficient manner. From in-house CAD software and one of a kind tooling to heavily customized shop management software, we have created a business system that allows

DO YOU  
KNOW

**Who  
made your  
mouthpiece?**

At Pickett, this is not a question.

We make them.  
And we always will.

[www.pickettbrass.com](http://www.pickettbrass.com)

us to focus on the musician, resulting in an unmatched experience in the creation of truly one of a kind mouthpieces that are second to none in quality and design.

From humble beginnings, Pickett Brass has transformed through the years into a world renowned brass mouthpiece and accessory manufacturing company.

Enjoy the craftsmanship and quality that we have developed for you.

*Pete Pickett*

Made in  
Lexington, Kentucky

# you dream it. we make it.

We turn sketch and metaphor into function and form, utilizing an efficient system of measurement, design, and manufacturing... all under one roof.

now comes in  
trombone...

The Pickett  
trombone rims  
are designed with  
extreme care  
to offer varied  
strengths without  
sacrificing comfort.  
This results in  
an extremely  
comfortable rim  
with the benefit  
of accurate  
and responsive  
articulations.  
Available in a  
multitude of  
diameters.

trom

# ombone

...any way you  
can dream.

Our optimized cups and backbores  
allow for a variety of tone colors. Pair  
your cup with one of our comfortable  
rim options to complete the ideal  
mouthpieces for any situation.

# cups

The Pickett trombone mouthpiece offer a variety of optimized cup depths. Ranging from our Lead cup to our Deep cup, this allows for quick customization to match tone colors for any setting.

- The “M” (Medium) cup, Pickett Brass’ most popular model, is a middle of the road cup designed to appeal to a broad range of performance genres.
- Our “S” (Shallow) cup provides more support in the middle and upper registers, adding some extra brilliance and efficiency.
- The “D” (Deep) cup features the most generous cup of our stock options, providing a free-blowing experience. The extra depth allows for a warmer and richer tone color in the lower register, without sacrificing the upper register.
- Our “L” (Lead) model offers a very shallow cup that will provide the zip you need in any lead/commercial setting. Our lead cups can be paired with the rim size of your choice, giving you the comfort of a familiar rim, along with a very efficient shallow cup.

# rim

The “C” rim is a classic trombone rim, with a pronounced bite and relatively flat profile. The classic feel will allow for instant response and crisp articulations while offering a comfortable fit. The “C” rim is featured on all of our one-piece models.

Our “R” rim features a rounded rim profile with a softer bite. The rounded rim profile offers a slightly wider feel, with a little more relief entering the cup, allowing for increased flexibility in all registers.

top quality product and service.  
really first class! perfect fit and look.  
superior to any other mouthpiece i have used.

**i went to the shop with my daughter who is an aspiring trumpeter. she was treated with utmost respect and care in determining what equipment was best. that meant a great deal to me.**

**outstanding mouthpieces and super-fast delivery...  
what more could you ask for?!**

“

**please keep up this high quality  
the other manufacturers!**

very well made, with excellent sound and superb workmanship!

they always listen and work with me.  
fantastic quality and consistency.  
the products are always 1st class.  
thanks for making a great product!

**simply the best trumpet**

it was better than any mp i have ever played on.

excellent- extremely precise work. exactly what i asked for.  
your customer service and willingness to help the client is fabulous.  
the valve caps and trim parts are working wonderfully.  
very easy to work with and communication is excellent.

**great - first rate to be able to talk to the guy**

i am very impressed with the work at pickett. i would recommend them highly to any level of player.

most responsive mp's i have ever played.

fantastic craftsmanship! the stems i ordered really improved the feel of my trumpet.

**service as it certainly sets you apart from many of**

the quickness of response and the speed of delivery of the ordered items is outstanding.

**superb customer service! it was a pleasure to deal with pickett brass.**

the staff are always friendly and professional!

everything is perfect !

excellent design and attention to detail.

quality merchandise at reasonable prices! i love it!!

**t mouthpiece i've ever played on.**

you should do this full-time peter! :)

**peter always goes the extra mile.**

quick and efficient communication on all levels.

**peter takes care of his customers!**

would recommend pickett brass to anyone.

you guys are always willing to work with me.

just perfect...nice finish on the mouthpiece...exactly as i wanted.

**y that actually makes your mouthpiece.**

pickett brass is extremely customer friendly. they work to make certain their customers are completely satisfied.

the customer service was fantastic. any correspondence was replied to immediately.

fast response and great customer service. good service and information.

i absolute love your work peter! i get more resonance on this mouthpiece than any other horn. my colleagues noticed a difference immediately!

**second to none! daily communication via the best run website on the net. everyday there is an update that you can view. no need to wonder what's going on. it's all right there in your account status. and the mouthpieces? they are fantastic. you have a customer in me!**
